OCEAN CANOE EQUIPMENT LIST

All program participants, including chaperones, require appropriate clothing and equipment to participate in SPL programs. Consider this a list of “must-haves,” regardless of the season. The weather is unpredictable, it can be sunny and warm in April or unseasonably cool and wet in August, so participants need to be prepared for whatever nature brings us. In early spring or late fall you’ll want to add some warmer layers, and June thru mid-September you may want extra shorts and T-shirts. It should not be necessary to purchase new items to enjoy your SPL experience. We recommend borrowing, renting or purchasing second hand items that you do not already own.

CLOTHING & FOOTWEAR

For active outdoor pursuits, the best way to regulate body temperature and to maintain warmth is to wear layers of clothing that can be adjusted depending on the weather, temperature and activity level. Layers should include long underwear, warm mid-layers and waterproof outerwear. Wool, nylon, polyester and synthetic fleece are recommended as clothing materials because they provide insulation even when wet and dry quickly. Cotton clothing is not acceptable for warm layers. Cotton loses any insulating value when wet, is slow to dry and should not be worn in damp conditions.

THE IMPORTANCE OF PROPER RAINGEAR CANNOT BE OVERSTATED.

Raingear must be waterproof (coated PVC or Gore-Tex) – if you can’t stay dry in the shower while wearing your raingear, it is not acceptable. This is NOT A JOKE.

There is no such thing as bad weather, only inappropriate clothing.

In addition to regular clothes each person requires:
