

Explore Camp Gear List

Being prepared for an extended backcountry trip is essential. The weather on Vancouver Island can be unpredictable; it can get cold and rainy at any time of the year. Consider this a list of “**must haves**”, regardless of the season. It should not be necessary to purchase new items to enjoy your SPL experience. We recommend borrowing, renting, or purchasing second hand items that you do not already own. If you have any questions about the list or need tips on local places to source gear, please feel free to give us a call. **Please bring all the required items from the list.** When you pack, allow extra room for your share of group gear and food. WYLD Expeditions provides all of the group gear, cooking, safety and technical equipment.

CLOTHING

For active outdoor pursuits, the best way to regulate body temperature and to maintain warmth is to wear layers of clothing that can be adjusted depending on the weather, temperature and activity level. Layers should include base-layers, warm mid-layers and waterproof outerwear. Wool, nylon, polyester and synthetic fleece are recommended as clothing materials because they provide insulation even when wet and dry quickly. Cotton clothing is not acceptable for warm layers. Cotton loses any insulating value when wet, is slow to dry and should not be worn in damp conditions

The importance of proper raingear cannot be overstated. **Rain gear must be waterproof (coated PVC or Gore-Tex)**- if you can't stay dry in the shower while wearing your raingear, it is not acceptable. This is NOT a joke.
